

Allow me to introduce myself. My name is Paul Webb and I am happily married to my wife Shannon. Between us we have 12 children and 11 grandchildren with two more grandbabies on the way! Since moving to Central Alberta in 1979 I have enjoyed serving my community through various Council, Board and Committee involvements. I like to serve where I live.

I moved to Bowden in 2011, and immediately fell in love with the “community feel” of Bowden. I did wonder though why it seemed that we were not taking advantage of our phenomenal location on the QE2 or the rail access on our west edge, so decided in 2013 to seek a Town Council seat. I really didn't know many folks in town then, nor did I have any knowledge of the political history here but with the experience of serving three terms on Council in a different community, a number of those years as Deputy Mayor and even a number of months as Acting Mayor, I felt as though I was qualified for the job. I was acclaimed to Council that year and spent the next four years getting my bearings and working with the rest of Council to begin working towards progress in this community we all call home. A significant amount of groundwork was laid but much was left to do. It was a desire to see things continue to improve and progress that motivated me to again seek a seat on the Council in 2017. Again, the six Councillors were acclaimed, albeit with three brand new Economic Development focused Council members. The tempo of progress got accelerated which I am personally thrilled about.

Bowden has become a destination for business and for those seeking a more reasonable cost of housing and that great “community feel”.

So much has been accomplished, particularly in the last four years, and momentum is still increasing.

councillorwebb@shaw.ca

As my son points out, not one person has ever voted for me in Bowden. Let's change that. Join with me in keeping the momentum going!

On October 18th vote WEBB for Town Council!
